“ There are so many memories with Tony.. he loved when we would go watch his daughter and niece play softball.. the day we got our tattoos, but the last 2years were the best seeing how happy and excited he was every weekend to go fishing The best memory I can remember was the most recent. He wanted a boat for his birthday so he could get out on the water and get that big catch. The boat came on Friday before all this happened. I love you baby and you will get on your boat 🚤 to catch your big fish 🐟 🎣

Liz, I am deeply sorry for your family's loss. I've known Tony since we were in elementary school. We had a chance to hang out a few times in our late teens and early 20's. Never a dull moment with Tony. I'll always remember him as a kid with his long hair and bad ass Jean jacket with the big OZZY patch. My heart breaks for you and the kids. May he rest in peace.
