“ *I could not have asked for a better mother in all the world. She taught us to be kind, and to fight for the underdogs in life. She was fiercely protective of her children, always seeing the best in each of us no matter what mistakes we had made. My mother made hard desicions at times in her life, and through her example, she taught us how to live with grace and dignity. She was a friend and confidant to all her children. Listening, without judgement, and showing unconditional love. I will miss her every single day until i see her again. I Love You Mom, Love Jackie*

“ *My grandma was such a loving selfless person, she set a strong example of how to treat others. I remember when I was a kid how far out of her way she would go to make sure my dad could see me and spend time with me, wether it was giving him a ride, or lending out her car despite her plans, she always put her families wants and needs before her own. She was hilarious and full of life, and could put any other grandma to shame on a dancefloor. She always stood up for what she believed in, and didn't hesitate to express herself with firm honesty and freedom. She got to see me get sober before she passed away, she would always tell me how proud she was about that. She had such a strong presence, and I can only thank God for blessing me with such an incredible grandma, I am certain she will make an even better angel.*

“ *Doris was a one of a kind. My brother (Jeff), her son in law married to Jackie always talked very highly of her. She will be truly missed.*
