“Dad I miss you so much already but I know you are at peace now and in mom’s arms. I know how much you missed her. You are the best father anyone could ask for and I had the privilege of having you as my dad. You were always there for us and always willing to help no matter what it entitled and never expected anything in return. You supported me know matter what. I am so grateful for all the memories I have and there are many. You always made me laugh with the humorous things you would say and always made me feel better if was down. Thank you for everything you have done for me and if I had nine lives I still would not be able to repay you for all you did for me. I love you unconditionally and you are always in my heart. Love you dad

“ Pappap- I am so grateful to have had you in my life. Some of my best, most cherished memories are with you and Grandma. No matter what, you always managed to put a smile on my face. (And of course, who could forget your sense of humor- always making us laugh!!) You loved all of us to the ends of the earth, and it showed through your actions and your smile.

*Hold Grandma tightly, she's missed you. Thank you for giving all your children, grandchildren, and great-grandchildren the opportunity to see what true, unconditional love looks like. Until we meet again, Pappap ❤️*

*Hugs and Kisses,  
Lyss*

“ Tom and I loved having Dad live with us for the first seven years after Mom passed he made us laugh one of my favorites was you get old you get cold. we would ask him or anyone would ask him How are you feeling ? I feel with my hands, When we went out to eat he would tease the waitresses at the restaurant most of the time making us laugh. We will miss him dearly.
