“ *I have been swimming with Fish for over 40 years. I came back to Connellsville every 4th of July to swim with Gary for the last 30 years and I am devastated by hearing about his death. Gary was a wonderful person. When he wasn't there this year I became concerned and was going to drive to his house this morning but sadly found this obituary. I swam with Gary last year but moved and changed my number and the one I had for Gary was disconnected. I am truly heartbroken and hope that his sister Gail can give me a call at 864-990-7178.
