“ I met Jen when she moved in beside me in Leechburg in the 1990's. We had so many great times together. We would frequent the Golden Lounge together or just hang out at her place. She babysat my daughter many times while I worked, never accepting any payment from me! She had a heart of gold and being that I was a single parent she would always make enough for dinner and send over my daughter and I a plate. We didn't see each other as much over the last several years but I enjoyed catching up with her life thru Facebook. Rest in peace my friend and thanks for the many memories. I cannot imagine the joy you felt being reunited with your Mom again!! ❤️❤️

“ I am sorry for everyone's loss. Jen and I used to hang out together in middle school. She was super fun to be around, and I loved her family. Even though her parents called mine after catching us trying to sneak out to meet boys! I loved every single minute I spent with her! She will be very missed.

“ Too many memories to share just one. She touched so many peoples lives including myself and always for the better. In times of great sadness, look back and take comfort in all of the beautiful memories you made. Gone but never forgotten.
