“ I first met Pat as a resident while rotating at AGH. She planned a Christmas party for the practice and she and Jack made me and my husband Phil feel like part of the family. That's just the way she was. Of course over the years she continued to be a constant presence in the ophthalmology community. I saw how hard she worked behind the scenes and helping at POS meetings. She was fun and kind and made you feel cared for and looked after. Such generosity of spirit! She really bore out the saying that behind every good man there is an even better woman!

“ We have so many fond memories of our times together mostly at Hidden Valley when we ate and played our special games. Your “mountain name” was Sister Theresa because you were constantly helping others and giving of yourself and your talents. May you Rest In Peace.
