“ *Dad...I can't believe you're gone. I miss you so much already. Please know that you always have been & always will be MY HERO. All your life you worked so to provide for your family and you never complained. Growing up I watched you not only take care of Mom and us kids, but others as well. Many lived with us throughout the years and you never thought twice about it. Everyone knew where they stood with you. You are and always will be a true inspiration to many dad. Im really going to miss all the stories you would tell. We loved hearing everything from driving the pop truck, the Korean War and all the Larimer Avenue stories. Continue those stories in Heaven Dad. I'm sure you're with Joey, Rocco and Grandpap talking up a storm and watching over us. Thank you for being the BEST DAD ever. I LOVE YOU.....LESA*
