“ *Have known Steve since St. Alphonsus days and he has been a friend all those years. Shared many good times and memories with him and our high school friends and classmates. many good memories from J.A. and the special friends we found there. I know he had been having health problems for many years but he always had time to talk and wanted to keep up with what was going on with his classmates and our common friends. He was a good hearted person and will be missed at our class reunions and seeing him around town. Rest in Peace old friend-your pain and suffering is over. Condolences to the rest of his family.*

Mike Werries - June 15, 2017 at 01:26 AM

A good hearted soul always kind to friends and strangers alike. Rest in peace.

Paul Cagna - June 15, 2017 at 05:42 PM

JM

“ I went to high school and graduated with Steve.
During the many years since I would run into him periodically
around town.
More recently though, I would see him at the pharmacy and foot
doctor since we both
became diabetics and had other health problems. It was always
nice to see him. I am sorry he became so bad. You can take comfort
that Steve has a new body now that
will never be sick again.

May this comfort you and strengthen you in your loss.

In Christ,

John McLaughlin
